

AFFIDAVIT OF ANNUAL ASSESSMENT WORK

STATE OF UTAH)
) ss
COUNTY OF SALT LAKE)

Notice is hereby given that Raymond-Ely Extension Mines Company, a Nevada corporation, has caused work to be done and/or improvements made as outlined below on the following named unpatented lode mining claims situated in the Ely Mining District, Lincoln County, Nevada:

- | | |
|--------------|---------------|
| HUNTER | HUNTER NO. 6 |
| HUNTER NO. 2 | HUNTER NO. 7 |
| HUNTER NO. 3 | HUNTER NO. 8 |
| HUNTER NO. 4 | HUNTER NO. 9 |
| HUNTER NO. 5 | HUNTER NO. 10 |

The work consisted of geological engineering surveys within the outside boundaries of said contiguous blocks and individual claims. The work was performed by or under the supervision of Mr. Jack M. Gardner, an engineer presently employed on an individual client basis, and Mr. Guy Snyder, a mining man with 50 years experience in exploration, development and operation in the mining field. Both of these gentlemen may be addressed at Felt Bldg., Salt Lake City, Utah - 84111. Purpose of the work was to accumulate information from a geologic and engineering standpoint pertinent to the future development of the subject claims, and the patented properties of Raymond-Ely Extension Mines Company adjacent thereto, and contiguous with those claims. While accumulating the above referred to data, a map, accurately describing the corners, outside boundaries and dimensions was prepared and a copy of said map has been duly filed with the Lincoln County Recorder as required by the new Nevada Mining Claims law.

Basic findings of the survey indicate that the "Poorman" fault is a normal fault with the Hunter claims being on the upthrown block, and it is post mineral. The Raymond-Ely fissure system and subsidiary systems can normally be expected to occur within the bed-rock under the alluvial cover of the upthrown block of the "Poorman" fault system.

Said work was performed and improvements made at the instance of and under the direction of the owner, Raymond-Ely Extension Mines Company, and had a value of not less than \$100 for each claim.

The undersigned is President of Raymond-Ely Extension Mines Company and it was he who directed the work outlined above. The labor was performed and improvements made between 12 o'clock Meridian 1 September, 1971 and 12 o'clock Meridian 1 September, 1972.
