KNOW ALL MEN BY THESE PRESENTS:

WHEREAS, Combined Metals Reduction Company did cause a petition to be filed in the United States District Court for the District of Nevada under the provisions of Chapter X of the Bankruptcy Act, which petition was approved and thereafter the undersigned was duly appointed as the qualified and acting trustee of said debtor; and

WHEREAS, the Honorable Roger D. Foley, Chief United States District Judge for said District did duly make and enter an Order dated August 2, 1976, authorizing and confirming the sale of all mineral properties and mineral interests owned by the debtor and situated in Lincoln County, Nevada, more particularly described in Exhibit "A" attached hereto, to Kerr-McGee Corporation, and further ordered that the undersigned trustee execute and deliver such trustee's deed and other documents as shall be reasonably necessary to accomplish the purposes of the order;

NOW, THEREFORE, I, the undersigned trustee of the estate of said debtor, by virtue of the title and power vested in me by the provisions of the Bankruptcy Act and by said Order, do hereby quit-claim and convey to Kerr-McGee Corporation all of the debtor's right, title and interest, which I may now own or hereafter acquire in, to and under certain patented and unpatented mining claims and millsite claims of the debtor located in Lincoln County, State of Nevada, more particularly described in the attached Exhibit "A", together with any and all veins, lodes, ledges, mineral deposits, privileges and all fixtures and items of personal property located thereon, for the sum of Ten Dollars (\$10.00) and other good and valuable consideration, receipt of which is hereby acknowledged,

excluding and reserving the right in the debtor, its tenants, successors and assigns to the use of the surface of that portion of the conveyed lands, claims and millsites as are presently used, occupied, leased and/or required for the operation of the Caselton Mill, together with carbon ponds, the millrun, the tailing ponds, the tailing piles, the campsite, the perlite plant, the main office, and all warehouses, and all appurtenances to all of the same, together with all existing means of ingress and egress to all of these properties.

Said surface areas lie within the narrative description set forth on Exhibits B and C attached, and are depicted upon Exhibit D attached.

Together with all the water and water rights, if any, and all and singular the tenements, hereditaments and appurtenances thereunto belonging or in anywise appertaining, and the reversion and reversions, remainder and remainders, rents, issues and profits thereof.

The properties herein conveyed are warranted and represented to be free and clear of all liens, claims, royalties, encumbrances and leases, with assessment work required to be performed for the year ending September 1, 1976, having been performed or in the process of completion and to be completed, and with real property taxes for the fiscal year 1975-1976 paid.

The right to the use of the surface as reserved above shall be non-exclusive and shall continue for so long as the surface is used for the operation of the Caselton Mill and for storage of Caselton Mill tailings, or can reasonably be expected to be so used and shall then expire. Upon expiration, grantor or his successor, shall have the right to remove all structures, equipment or property of any description owned by them and situated upon the surface.

M.S.P.

All rights conveyed hereunder are expressly subject to that certain Agreement for use of water between the grantor and the grantee dated August 31, 1976.
