Replaced windows broken by vandels.

Replaced wiring and lights ripped up by vandels.

Removed old stationary compressor from compressor house to make room for new tool room.

Replaced planks around collar of shaft.

Replaced rotten rungs on ladder in manway.

Removed over 20 tons of material to expose rock outcrop and take field sample for assay.

Moved 20 tons of material from tailings dump to expose cross-section for sampling, then removed 2 tons of ore from tailings dump to perform production testing by cyanide process.

Conducted cyanide testing on ore samples from 10 lbs. to 800 lbs. at Star Minings's Laboratory and Plant Facilities in Las Vegas.

Took over 150 Field samples for assay, all field samples are staked in field.

Approved Engineering Test Laboratories in California performed chemical extraction testing on ore.

Performed underground survey and updated all underground mapping and consolidated all previous underground mapping. Also took underground ore samples. Formal Report is being compiled by Phil Hulse.

The undersigned does hereby certify that the above mentioned projects were completed at the expense of Star Mining Inc. & that at least, \$10,000.00 has been spent.

Ray I. Carter

 Agent for Star Mining
