AMMENDED "PROOF OF LABOR" UPON MINING CLAIM
ASSESSMENT YEAR SEPTEMBER 1981 TO AUGUST 31, 1982.

NAME OF CLAIMS

- Castle #1 BLM # 189202
- Castle #3 BLM # 189204
- Castle #5 thru 8 BLM # 189206 thru 189209
- De Aubrey Jean #1 thru #8 BLM # 212274 thru 212281
- Russ #1 thru #4 BLM # 212282 thru # 212285

In addition to the assessment work performed and filed by Arnold C. Castle (see original "proof of labor" 1981-1982) for the year 1981-1982, the following work was also performed on the above noted mining claims:

- 1 - Levelled site area and constructed concrete forms in order to pour concrete foundations.
- 2 - Constructed steel reinforced foundations and concrete slabs for construction of pilot plant.
- 3 - Constructed pilot plant on the Castle #7 mining claim including Hopper, impact mill, concentration plant and electrical generating facilities.
- 4 - Installed site facilities and housing accommodations for mining crew.
- 5 - Constructed approximately 2,000 feet of new roads and access roads.
- 6 - Tested ore material from all of the noted claims.
- 7 - Processed approximately 50 cubic yards of material from the claims.
- 8 - Processed Concentrates.

The value of the above work was well above Ten Thousand dollars (\$10,000.00). The concrete foundations and floor slabs and steel hopper with screw feeder still exists on the mining claims today as evidenced by the attached photographs taken in early September of 1983.

The work was performed during March, April, May and June of 1982 by the following personnel listed below. Their signatures appear on this document as evidence of their participation and efforts in the construction of the pilot plant.

-2-

I, Joseph P. LaStella, P.E., am filing this amended "Proof of Labor" on behalf of Arnold C. Castle who is now deceased. The assessment work covered by this amended document was not filed by Arnold C. Castle because Mr. Castle had also completed an extensive exploration and testing program during the same period (September 1981 - August 1982) which more than covered the required amount of assessment work to keep the claims valid; however, Mr. Castle, in filing his proof of labor for that period, did not identify the items of work he completed in sufficient detail. For example, Mr. Castle did not state that he removed at least 50 cubic yards of material during his testing and evaluation program.

Therefore, since Mr. Castle is now deceased and cannot clarify this problem, I am submitting an amended "Proof of Labor" in his behalf for the work I completed for him for the period September 1981 - August 1982. Thank you.

Sincerely,
Joseph P. LaStella
