SUMMARY REPORT

This detailed report is filed in compliance with the requirements of Title 30, U.S. code section 28-1 for The Ora Group of contiguous lode mining claims, located in Lincoln County, Nevada.

The work consisted of:

Reconnaissance geologic mapping and geochemical sampling.

to evaluate the discovery of valuable mineral deposits located thereon and to assist in planning further development work. This work was performed January 1, 1985 and March 2, 1985 and July 19, 1985 and August 20, 1985 by or under the direct supervision of Mr. Mel Lahr, a professional geologist employed by American Copper and Nickel Co., Inc. The cost of the above study exceeded \$12,400.00 and was paid for by American Copper and Nickel Co., Inc.

The basic finding of the reconnaissance geologic mapping and sampling indicate that the stratigraphy is similar to the Alligator Ridge deposit Mineralization within the subject claims in controlled by a Hydrothermal system of basin and range structures with possible intrusive activity.

A continuing program consisting of drilling, sampling and further geological studies is being conducted on this property. All technical work and results are in the possession of American Copper and Nickel Co., Inc. a Minnesota Corporation, with offices at 4860 Robb Street, Suite 201, Wheat Ridge, CO 80033, for the owner of the said claims; Resource Associates of Alaska, 122 First Avenue, Fairbanks, AK 99701.

Respectfully submitted,

Jody K. Moseley
