Dear Sirs;

This is in response to your letter dated May 13, 1987 informing us that the Rachel Right-of-Way (N-43646) was constructed in the wrong location and across a portion of private property. You also stated that you would like to construct a new portion of road by passing the private property so that the problem may be rectified.

On May 14, 1987, Larry Lacey, Range Technician, went out to Rachel and conducted a cultural clearance on the portion of road by passing the private property with a negative cultural find. Taking that and the problem of the private property in mind, I am hereby granting you permission to construct the portion of road located in T.4S., R.55E., Section 7, and 8 outlined on the map attached and that portion only.

In regards to the remainder of the road that was built in the wrong location, it will have to be cleared by an archeologist. With current district funding and priorities workloads, I do not know when the rest of the road can be cleared and the Right-of-Way granted. We will proceed as quickly as we can to complete the identified changes.

I sincerely hope that the part I have cleared for construction will help you rectify your immediate problem.

If I can be of any further assistance, please feel free to contact this office or Larry Lacey at the number above.
