Detailed Assessment Report  
Horsechief Spring Property

This detailed report is filed in compliance with the requirements of Title 30, United States Code, Section 28-1 for the claims AU 11 - 13, 15 to 20, 22 to 25, Horse 1 - 21, 23 - 25 and AU Fractions 14, 15 and 21 being a group of 40 contiguous lode mining claims situated in the Eagle Valley Mining District, East of Pioche in Lincoln County, Nevada.

The work consisted of geological mapping to determine ore controls and alteration patterns employing enlarged BLM aerial photographs procured from the US Geological Survey. The mapping was conducted in the north central part of the property and demonstrated that gold mineralization is associated with a number of scattered large jasperoid bodies formed in a sequence of Paleozoic siltstones, quartzites, and limestones. The work was performed in June and July 1989 by the writer, a geologist of 27 years' experience with a B. Sc. (1962) from the University of Manitoba and a Ph. D. from the University of Manitoba (1973), whose address is 4221 S. Yukon Way, Lakewood, CO 80235.

The costs of the work exceeded \$4000.00 and were paid by Allan P. Juhas and Joseph W. Mueller.

Additional exploration activities are under consideration for the property. All technical work and results are in the possession of Allan P. Juhas and Joseph Mueller, P. O. Box 528, Conifer, CO 80433.

Respectfully submitted,

*Allan P. Juhas*
