Dear Mr. Flake:

On a recent visit to Caliente, I found that someone had illegally taken possession of a house trailer that belongs to me. Perhaps out of ignorance or misdirection I have reason to believe that you are the party who removed the house trailer from the private property near the tree houses and relocated it over by the pumping station for your personal use.

I ask that you please make an explanation as to whom gave you permission to take possession of the house trailer and what your intentions are so far as compensation for its use.

I don't wish to cause you any undo embarrassment so I thought it best to contact you directly for an explanation before I reported the incident to the Lincoln County Sheriff.

An early reply will be appreciated.

Sincerely,

Mark A Wood
