TOWNSHIPS 2 & 3 NORTH, RANGES 60 & 61 EAST, W.M.  
Nye and Lincoln Counties, Nevada**

This report is attached to and made a part of the "Affidavit of Work Performed", dated September 18<sup>th</sup>, 1992, on the 365 contiguous LS claims captioned above which are situated in a mining district located in both Nye and Lincoln Counties, Nevada.

A total of 103.5 man-days were spent between April 27 and August 28, 1992 on prospecting, grid establishment and follow-up ground survey work. This exploration work consisted of a geochemical survey conducted on 16.38 line miles of a chain and compass grid and included collection of 865 soil and 38 rock chip samples. The cost of said labor and improvements which required 103.5 man days was in excess of \$38,000 and was paid by Crown Resources Corporation.

The rock sample locations and soil survey grid are shown on the attached maps. Analysis of these samples as well as the rock chips provided data on the compositional and metallic character of exposed and subcropping bedrock. Based on this data, a determination will be made of those areas that warrant more detailed ground exploration in the search for mineral deposits.

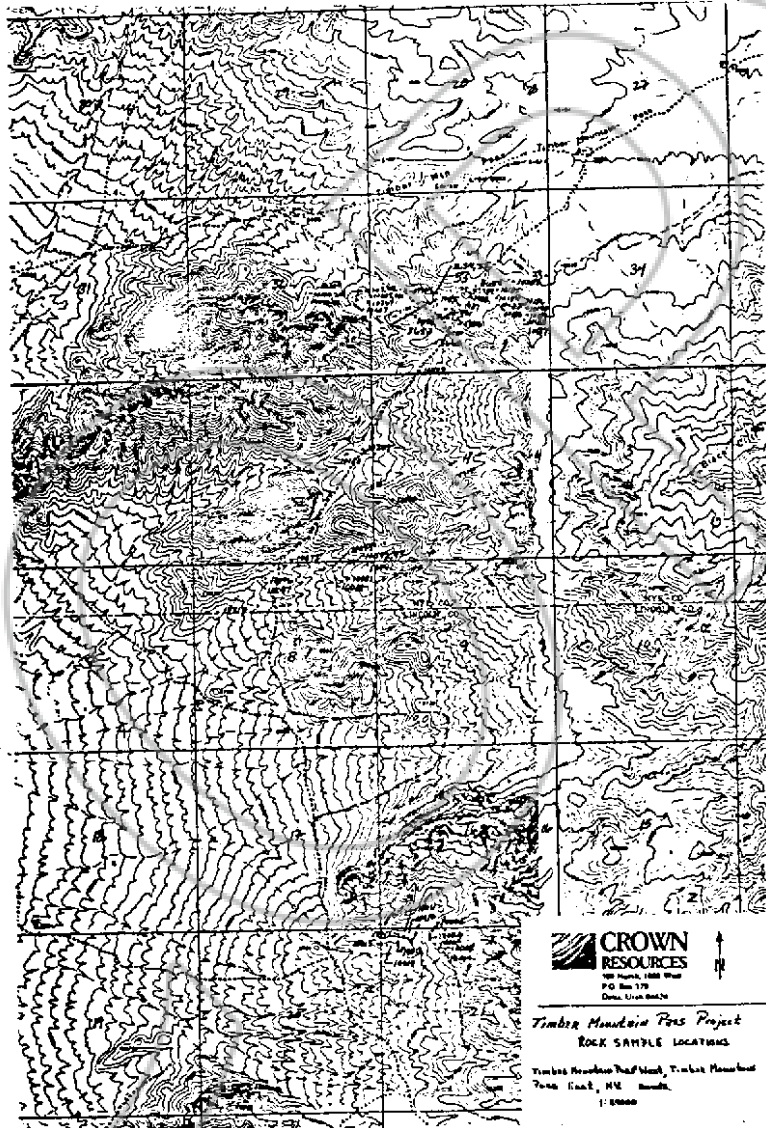

The described ground work as well as geologic and structural mapping was completed by Crown Resources personnel. Attached to this report is a list of geologists and geotechnicians who carried out and/or assisted in the mapping and geochemical survey. They are qualified by training and experience to carry out mapping and geochemical surveys of the type performed and described herein. Analytical services on the soil and rock chip samples were provided by Rocky Mountain Geochemical Corp., Salt Lake City, UT.
