4. (a) Undersigned certifies that (1) offeror is a citizen of the United States; an association of such citizens; a municipality; or a corporation organized under the laws of the United States or of any State or Territory thereof; (2) all persons holding an interest in the offer are in compliance with 43 CFR 3100 and the leasing authorities; (3) offeror's assignable interests, current and deferred, in lands in public domain and acquired lands separately in the same State do not exceed 246,000 acres in oil and gas leases (of which up to 200,000 acres may be in oil and gas leases); (4) offeror is not considered a minor under the laws of the State in which the lands covered by this offer are located; (5) offeror is in compliance with coal lease provisions contained in the coal lease holdings provided in sec. 2(a)(2)(A) of the Mineral Leasing Act; (6) offeror is in compliance with reclamation requirements for all Federal oil and gas lease holders as required by sec. 17(a) of the Mineral Leasing Act; and (7) offeror is not in violation of sec. 41 of the Act.

(b) Undersigned agrees that signature to this offer constitutes acceptance of this lease, including all terms, conditions, and stipulations of which offeror has been given notice, and any addendum or separate lease that may include any land described in this offer to lease at the time this offer was filed but omitted for any reason from this lease. The offeror further agrees that the offer or separate lease that may include any land described in this offer to lease at the time this offer was filed but omitted for any reason from this lease, an addendum to the lease, or a separate lease, whichever covers cannot be withdrawn, either in whole or in part, unless the withdrawal is received by the proper BLM State Office before this lease, an addendum to the lease, or a separate lease, whichever covers the land described in the withdrawal, has been signed on behalf of the United States.

This offer will be rejected and will afford offeror no priority if it is not properly completed and executed in accordance with the regulations, or if it is not accompanied by the required payments. 18 U.S.C. Sec. 1901 makes it a crime for any person knowingly and wilfully to make to any Department or agency of the United States any false, fictitious or fraudulent statement or representations as to any matter within its jurisdiction.

Duly executed this 3 day of JAN.

LEASE TERMS

Sec. 1. Rentals—Rents shall be paid to proper office of lessor in advance of each lease year. Annual rental rates per acre or fraction thereof are:

- (a) Noncompetitive lease, \$1.50 for the first 5 years; thereafter \$2.00.
- (b) Competitive lease, \$1.50; for the first 5 years; thereafter \$2.00.
- (c) Other, see attachment, or as specified in regulations at the time this lease is issued.

If that state or a portion thereof is committed to an approved cooperative or unit plan which includes a well capable of producing leased resources, and the plan contains a provision for allocation of production, royalties shall be paid on the production allocated to this state. However, annual rentals shall continue to be due at the rate specified in (a), (b), or (c) for those lands not within a participating area.

Failure to pay annual rental, if due, on or before the anniversary date of this lease (or next official working day if office is closed) shall automatically terminate this lease by operation of law. Rents may be waived, reduced, or suspended by the Secretary upon a sufficient showing by lessee.

Sec. 2. Royalties—Royalties shall be paid to proper office of lessor. Royalties shall be computed in accordance with regulations on production removed or sold. Royalty rates are:

- (a) Noncompetitive lease, 12½%.
- (b) Competitive lease, 12½%.
- (c) Other, see attachment, or as specified in regulations at the time this lease is issued.

Lessor reserves the right to specify whether royalty is to be paid in value or in kind, and the right to establish reasonable minimum values on products after giving lessor notice and an opportunity to be heard. When paid in value, royalties shall be due and payable on the last day of the month following the month in which production occurred. When paid in kind, production shall be delivered, unless otherwise agreed to by lessor, to merchantable condition on the premises where produced without cost to lessor. Lessor shall not be required to hold such production in storage beyond the last day of the month following the month in which production occurred, nor shall lessee be held liable for loss or destruction of royalty oil or other products in storage from causes beyond the reasonable control of lessor.

Maximum royalty is 100% of rental or less than the rental which otherwise would be required for this lease year shall be payable at the end of each lease year beginning on or after a discovery of paying quantities. This maximum royalty may be waived, suspended, or reduced, and the above royalty rates may be reduced, for all or portions of the lease if the Secretary determines that such action is necessary to encourage the greatest ultimate recovery of the leased resource or is otherwise justified.

All interest charge shall be assessed on late royalty payments or underpayments in accordance with the Federal Oil and Gas Royalty Management Act of 1982 (FOGROMA) (30 U.S.C. 170). Lessor shall be liable for royalty payments on oil and gas lost or wasted from a lease site after such loss or waste is due to negligence on the part of the operator, or due to the failure to comply with any rule, regulation, order, or citation issued under FOGROMA or the leasing authority.

Sec. 3. Bonds—A bond shall be filed and maintained for lease operations as required under regulations.

Sec. 4. Delays, rate of development, succession, and drainage—Lessor shall exercise reasonable diligence in developing and producing, and shall prevent unnecessary damage to, loss of, or waste of leased resources. Lessor reserves right to specify rates of development and production in the public interest and to require lessee to subscribe to a cooperative or unit plan within 30 days of notice, if deemed necessary for proper development and operation of area, field, or pool covering these leased lands. Lessor shall drill and produce wells necessary to protect leased lands from drainage or pay compensatory royalty for damage to areas determined by lessee.

Sec. 5. Liens—Leasehold, environmental, and insurance—Lessor shall file with proper office of lessor, not later than 30 days after effective date thereof, any contract or evidence of other arrangements for sale or disposal of production. All such titles and all such forms as lessor may prescribe. Lessor shall furnish detailed statements showing amounts and quality of all products removed and sold, processes, inventories, and accounts used for production purposes or unavoidable loss. Lessee may be required to provide plans and schematic diagrams showing development wells and improvements, and reports with respect to parties in interest, expenditures, and depreciation costs. In the form prescribed by lessor, lessor shall keep a daily drilling record, a log of information on well surveys and tests, and a record of subsurface investigations and tunnel copies to lessor when required. Lessor shall keep copies of all responsible titles for information by any authorized officer of lessor, the names, premises, and all wells, improvements, machinery, and fixtures, leases, and all books, accounts, maps, and records relative to operations, surveys, or investigations on or in the leased lands. Lessee shall maintain copies of all contracts, sales agreements, accounting records, and correspondence such as bills, invoices, or similar correspondence that supports

costs claimed as manufacturing, preparation, and/or transportation costs. All such records shall be maintained as bases for accounting offices for future audit by lessor. Lessor shall maintain required records for 6 years after they are generated or, if no audit or investigation is underway, until released of the obligation to maintain such records by lessor.

During existence of this lease, information obtained under this section shall be closed to inspection by the public as accordance with the Freedom of Information Act (5 U.S.C. 552).

Sec. 6. Conduct of operations—Lessor shall conduct operations in a manner that minimizes adverse impacts to the land, air, and water, to cultural, biological, visual, and other resources, and to other land uses or users. Lessor shall take reasonable measures dictated necessary by lessor to accomplish the intent of this section. To the extent consistent with state rights reserved, such measures may include, but are not limited to, modification to strip or design of facilities, timing of operations, and specification of metrics and fuel reduction measures. Lessor reserves the right to consume excess land and to authorize lessee use upon or in the leased lands, including the approval of extensions or right-of-way. Such uses shall be conditioned so as to prevent unnecessary or unreasonable interference with rights of lessor.

Prior to disturbing the surface of the leased lands, lessor shall contact lessor to be apprised of procedures to be followed and modifications or minimization measures that may be necessary. Areas to be disturbed may require surveys or special studies to determine the extent of impacts to other resources. Lessor may be required to compensate major investors or short term special guests under procedures provided by lessor. If it is the conduct of operations, threatened or endangered species, objects of historic or scientific interest, or substantial unanticipated environmental effects are observed, lessor shall immediately contact lessor. Lessor shall cease any operations that would result in the destruction of such species or objects.

Sec. 7. Mining operations—To the extent that impacts from mining operations would be substantially different or greater than those associated with normal drilling operations, lessor reserves the right to deny approval of such operations.

Sec. 8. Extraction of helium—Lessor reserves the option of extracting or having extracted helium from gas production as a manner specified by or lease provided by lessor at no expense or risk to lessor or owner of the gas. Lessor shall include in any contract of sale of gas the provisions of this section.

Sec. 9. Damages to property—Lessor shall pay lessor for damage to lessor's improvements, and shall save and hold lessor harmless from all claims for damage or harm to persons or property as a result of lease operations.

Sec. 10. Protection of diverse interests and equal opportunity—Lessor shall, as soon as possible after lease is awarded and levied under laws of the State or the United States, accord all employees complete freedom of purchase, sell, or wages at least twice each month to lawful money of the United States, maintain a safe working environment in accordance with standard industry practices, and take measures necessary to protect the health and safety of the public.

Lessor reserves the right to ensure that production is sold at reasonable prices and to prevent monopoly. If lessor operates a pipeline, or owns controlling interest in a pipeline or a company operating a pipeline, which may be operated accessible to or derived from these leased lands, lessor shall comply with section 28 of the Mineral Leasing Act of 1920.

Lessor shall comply with Executive Order No. 11246 of September 24, 1965, as amended, and regulations and relevant orders of the Secretary of Labor issued pursuant thereto. Neither lessor nor lessor's subcontractors shall discriminate against race.

Sec. 11. Transfer of lease interests and relinquishment of lease—As required by regulations, lessor shall file with lessor any assignments or other transfer of an interest in the lease. Lessor may relinquish that lease or any legal subdivision by filing in the proper office a written relinquishment, which shall be effective as of the date of filing, subject to the continued obligation of the lease and subject to pay all accrued rents and royalties.

Sec. 12. Delivery of premises—At such time as all or portions of this lease are returned to lessor, lessor shall place affected wells in condition for suspension or abandonment, reclaim the land as specified by lessor and, within a reasonable period of time, remove equipment and improvements not deemed necessary by lessor for preservation of productive wells.

Sec. 13. Proceedings in case of default—If lessee fails to comply with any provisions of this lease, and the noncompliance continues for 30 days after written notice thereof, the lease shall be subject to cancellation unless or until the household contains a well capable of production of oil or gas in paying quantities, or the lease is committed to an approved cooperative or unit plan or communitization agreement which contains a well capable of production of maximum substances in paying quantities. This provision shall not be construed to prevent the exercise by lessor of any other legal and equitable remedy, including waiver of the default. Any such remedy or waiver shall not prevent lessor's cancellation for the same default occurring at any other time. Lessor shall be subject to applicable provisions and penalties of FOGROMA (30 U.S.C. 170).

Sec. 14. Heirs and successors-in-interest—Each obligation of this lease shall extend to and be binding upon, and every benefit herein shall accrue to the heirs, executors, administrators, successors, beneficiaries, or assigns of the respective parties hereto.

THE FOLLOWING NOTICE WILL BE ATTACHED TO ALL
ISSUED LEASES

NOTICE TO LESSEE

Provisions of the Mineral Leasing Act (MLA) of 1920, as amended by the Federal Coal Leasing Amendments Act of 1976, affect an entity's qualifications to obtain an oil and gas lease. Section 2(a)(2)(A) of the MLA, 30 U.S.C. 201(a)(2)(A), requires that any entity that holds and has held a Federal coal lease for 10 years beginning on or after August 4, 1976, and who is not producing coal in commercial quantities from each such lease, cannot qualify for the issuance of any other lease granted under the MLA. Compliance by coal lessees with Section 2(a)(2)(A) is explained in 43 CFR 3472.

In accordance with the terms of this oil and gas lease with respect to compliance by the initial lessee with qualifications concerning Federal coal lease holdings, all assignees and transferees are hereby notified that this oil and gas lease is subject to cancellation if: (1) the initial lessee as assignor or as transferor has falsely certified compliance with Section 2(a)(2)(A) or (2) because of a denial or disapproval by a State Office of a pending coal action, i.e., arms-length assignment, relinquishment, or logical mining unit, the initial lessee as assignor or as transferor is no longer in compliance with Section 2(a)(2)(A). The assignee or transferee does not qualify as a bona fide purchaser and, thus, has no rights to bona fide purchaser protection in the event of cancellation of this lease due to noncompliance with Section 2(a)(2)(A).

Information regarding assignor or transferor compliance with Section 2(a)(2)(A) is contained in the lease case file as well as in other Bureau of Land Management records available through the State Office issuing this lease.
