

Lincoln County

Prod. 88 Rev. - Pooling
Standard Lease 8/1/80

OIL AND GAS LEASE

THIS AGREEMENT, made this 20th day of November, 1995, by and between William Mull and Connie Mull, husband and wife, P. O. Box 470, Panaca, Nevada 89042, herein called "Lessor" (whether one or more), and LAPATCO ENERGY, INC., 12600 West Colfax Ave., Suite C-450, Lakewood, Colorado 80215, herein called "Lessee", WITNESSETH THAT:

1. The Lessor, for and in consideration of One Dollar (\$1.00) and other good and valuable consideration in hand paid, the receipt of which is hereby acknowledged, and of the covenants and agreements hereinafter contained, does hereby grant, demise, lease and let exclusively unto Lessee, its successors and assigns, the hereinafter described land, for the purpose and with the exclusive right of investigating, exploring, prospecting, drilling, mining and operating for and producing (by such method or methods as Lessee may deem advisable including repressuring and pressure maintenance of subsurface formations with fluids or gases), saving, taking, owning, storing, treating, transporting and marketing oil, gas (including helium, carbon dioxide and any substance produced in a gaseous state), casinghead gas, condensate, all other liquid and gaseous hydrocarbons, sulphur, and all substances produced therefrom or incidental to the production thereof (all the foregoing specifically named and other substances being herein referred to as oil, gas, and other leased substances or simply as leased substances), together with rights of way and easements for roads, pipe lines, telephone and telegraph lines, power lines, radio and electronic communications facilities; and for erecting and using power houses and stations, tanks and reservoirs for storing oil and salt water and other substances produced from said land or land pooled therewith, gasoline plants, pressure and repressure and recycling plants, and all other machinery, fixtures, equipment and structures deemed necessary or convenient thereon; together with any and all other rights and privileges necessary, incident to or convenient for or in connection with the purposes hereof and

the exercise of Lessee's rights hereunder; said land being described as follows, situated in the County of Lincoln State of Nevada, to-wit:

TOWNSHIP 9 NORTH, RANGE 63 EAST, M.D.B. & M.
Section 12: S1SW1/4

TOWNSHIP 9 NORTH, RANGE 64 EAST, M.D.B. & M.
Section 4: Lots 1(39.90), 2(39.98), SW1/4SW1/4

Section 5: S1SE1/4, SE1/4SW1/4

Section 6: Lots 2(40.08), 3(40.05), 4(37.20), 5(37.31), SE1/4NW1/4, SW1/4NE1/4, W1/4SE1/4, NE1/4SW1/4

Section 8: NE1/4NW1/4, S1/4NW1/4, NE1/4, N1/4S1/4, SE1/4SW1/4, SW1/4SE1/4

Section 9: W1/4NW1/4, NW1/4SW1/4

Section 15: SW1/4NW1/4, NW1/4SW1/4

Section 16: NW1/4NW1/4, S1/4NW1/4, S1/4

Section 17: W1/4NE1/4, N1/4SE1/4, SE1/4SE1/4

Section 20: NE1/4NE1/4

Section 21: NW1/4NW1/4

containing 2,194.52 acres, more or less; and for the purpose of calculating rental payments hereunder said land shall be deemed to contain exactly that number of acres, whether it actually contains more or less. Lessor intends to and hereby leases not only the above described land, but all lands owned or claimed by Lessor adjacent to said land up to the boundaries of the adjoining owners.

2. This lease shall be effective on and including the date hereof (herein called the "effective date"), and in addition thereto and subject to the other provisions hereof this lease shall be for a term of Five (5) years from and after the effective date hereof (herein called the "primary term") and as long thereafter as oil, gas and other leased substances or any of them are produced from said land hereunder or land pooled therewith, or operations (as hereinafter defined) are continuously prosecuted as hereinafter provided on said land or land pooled therewith, or this lease is continued in force under any provision hereof or otherwise.

3. If operations for the drilling of a well are not commenced on said land or on land pooled therewith on or before one year from and after the effective date hereof, this lease shall terminate as to both parties, unless on or before one year from and after the effective date hereof the Lessee

shall pay or tender to the Lessor a rental of TWO THOUSAND ONE HUNDRED NINETY FOUR and 52/100 DOLLARS (\$2,194.52) which shall cover the privilege of deferring commencement of such operations for a period of twelve (12) months. In like manner and upon like payments or tenders, annually, the commencement of said operations may be further deferred for successive periods of the same number of months each, during the

primary term. Payment or tender may be made to the Lessor or to the credit of Lessor in Nevada Bank & Trust Bank

at P. O. Box 659, Ely, Nevada 89301, or any successor, which depository bank, or any successor thereof, is and shall continue to be agent for the Lessor, and Lessor's successors and assigns. If such bank (or any successor bank) shall fail, liquidate, or be succeeded by another bank, or for any reason fail or refuse to accept rental, Lessee shall not be held in default until thirty (30) days after Lessor shall deliver to Lessee a recordable instrument, making provision for another method of payment, or tender, and any depository charge shall be a liability of the Lessor. The payment or tender of rental may be made by check or draft of Lessee, mailed or delivered to said bank or Lessor, on or before the rental paying date. If Lessee shall, in good faith and with reasonable diligence, attempt to pay any rental, but shall fail to pay or incorrectly pays some portion thereof, this lease shall not terminate unless Lessee, within thirty (30) days after written notice from the Lessor of its error or failure, shall fail to rectify the same.

4. The royalties to be paid by Lessee are:

A. On oil, including condensate and other liquid hydrocarbons which are produced at the well in liquid form by ordinary production methods, one-eighth (1/8) of that produced and saved from said land, same to be delivered in kind to Lessor at the well in tanks or facilities provided by Lessor, or in kind to the credit of Lessor into the pipe line or other transportation facility connected to or otherwise utilized in transporting oil from the wells. Lessee may from time to time purchase any royalty oil and other liquid hydrocarbons in its possession, paying therefor the net market price thereof (as defined below), computed at the well. In either case the Lessor's interest shall bear its proportion of the cost of treating the oil to make it marketable and of transporting it from the well to point of delivery to the purchaser.

B. On gas, including casinghead gas and other gaseous substances produced and saved from said land, the royalty shall be: (1) in case Lessee shall itself use gas in the extraction of gasoline, distillate or other products therefrom, one-eighth (1/8) of the net proceeds (as defined below) received by Lessee from the sale of the gasoline, distillate and other products extracted therefrom and which are saved and marketed; and one-eighth (1/8) of the net proceeds received by Lessee from the sale of residue gas remaining after such extraction; being in each case the net proceeds computed at the well; (2) in case gas is sold at the well, one-eighth (1/8) of the net proceeds received by Lessee from the sale thereof, computed at the well; (3) in all other cases when gas is sold, one-eighth (1/8) of the net proceeds received by Lessee from the sale thereof, computed at the well; and (4) in case Lessee shall not sell but shall use gas for operations other than operations under this lease, one-eighth (1/8) of the net market price thereof, computed at the well. In either case the Lessor's interest shall bear its proportion of the cost of treating, gathering, processing (including compressing gas and extracting the products thereof), storing, and transporting the gas and products thereof from the well or plant, as the case may be, to the point of delivery to the purchaser or user.

(over)

C. On all other leased substances produced and saved, including substances produced with or incidental to the production of hydrocarbons and sulphur from said land, and saved, the royalty shall be one-eighth (1/8) of the net proceeds received by Lessee from the sale thereof computed at the well; and when not sold but used by Lessee for operations other than operations under this lease, the royalty shall be one-eighth (1/8) of the net market price of such substances so used, computed at the well, except that on sulphur the royalty shall be One Dollar (\$1.00) per long ton.

D. No royalty shall be payable on oil, gas and other leased substances, or products thereof, or residue gas, produced from said land and used by Lessee for operations on said land, or disposed of for no consideration to Lessee either through unavoidable loss or leakage, or in order to produce or recover leased substances, or returned to a subsurface formation.

E. The term "net market price" as used in this lease means the price prevailing in the field where said land is located of substances of the same or substantially the same kind, quality, quantity and characteristics as leased substances or products thereof, as determined by comparable sales or as established by governmental authority; and if there are no comparable sales or governmental price controls, such price as determined by Lessee to be fair and reasonable; less the reasonable cost of treating, gathering, processing (including compressing gas and extracting the products thereof), storing, and transporting same from the well or plant, as the case may be, to the point of delivery to the purchaser or user. The term "net proceeds" as used in this lease means proceeds received by Lessee from sales of leased substances or products thereof, less costs mentioned above in this paragraph.

F. It is the intention of the parties hereto to lease substances the Lessor may take in kind, subject to applicable governmental regulations and price controls, that the Lessee shall have and is granted the sole and unfeathered right to sell the leased substances for such price and upon such terms and conditions and for such duration as the Lessee in its sole discretion deems advisable; provided that any such sale and contract of sale is made by Lessee in good faith as a prudent operator, at arm's length (or as favorable to Lessor as if at arm's length), and is fair and reasonable at the time and under the circumstances existing when entered into; and it is agreed that royalty paid hereunder on or based on net proceeds from any such sale or contract of sale, or on net market price as determined hereunder, will satisfy the provisions of this lease with respect to the payment of royalty hereunder.

5. If Lessee obtains production of oil, gas or other leased substances on said land or on land with which the leased premises or any portion thereof has been pooled, and if, during the life of this lease either before or after the expiration of the primary term, all the wells are shut in before or after production therefrom because of the lack either of a market at the well or wells or of an available pipe line outlet or capacity in the field, or because in Lessee's good faith judgment it is not advisable to produce and sell such production for the time being, this lease shall not terminate but shall continue in effect during such shut-in period as though production were actually being obtained on the premises within the meaning of Paragraph 2 hereof, and for all purposes hereof it shall be deemed that production in paying quantities is being so obtained, and on or before the anniversary of the effective date hereof next ensuing after the expiration of ninety (90) days from the date all such production is shut in, and on the anniversary on or before such anniversary date so long as all such production is shut in and not commenced or re-commenced on or before any such succeeding anniversary date, Lessee shall pay or tender to the royalty owners or to the credit of royalty owners in any depository bank specified in this lease, an amount equal to the annual delay rental that would then be payable as provided in Paragraph 3 hereof. Such payment or tender may be made by check or draft of Lessee, mailed or delivered to said bank or royalty owners, on or before said anniversary date. The owners of the royalty as of the date of such payment shall be entitled thereto in proportion to their ownership of the royalty. The provisions of this paragraph shall be recurring or in part, or to otherwise maintain this lease in force and effect under its other provisions, and no shut-in royalty shall be due for or with respect to a shut-in period during which this lease is otherwise maintained in force and effect.

6. If before commencement of production of oil, gas or other leased substances on said land or on land pooled therewith, Lessee should drill a dry hole or holes thereon, or should abandon the drilling of a hole or holes thereon, or if, after the commencement of production of oil, gas or other leased substances thereon, the production thereof should cease from any cause, this lease shall not be terminated thereby if Lessee commences or resumes operations or production within ninety (90) days thereafter on said land or on land pooled therewith; or (ii) if it be within the primary term) the Lessee either (i) if there be no further rental paying date thereafter, commences or resumes operations or production on said land or on land pooled therewith prior to the expiration of the primary term; (ii) if there be a rental paying date thereafter, commences or resumes the payment or tender of rentals or commences or resumes operations or production on said land or on land pooled therewith on or before the expiration of ninety (90) days from the date of abandonment of such hole or the cessation of production; or (iii) complies with any of the provisions hereof in lieu of operations or production. If at the expiration of the primary term oil, gas or other leased substances or any of them are not being produced on said land or on land pooled therewith but Lessee is then engaged in operations thereon, or if Lessee shall have ceased operations or production as the same or other operations are prosecuted (on the same or different wells) with no cessation of more than ninety (90) consecutive days, and whether or not they result in the production of oil, gas or other leased substances, as long thereafter as oil, gas or other leased substances are produced from operations prosecuted (on the same or different wells) on said land or on land pooled therewith with no cessation of more than ninety (90) consecutive days. Whenever used in this lease the word "operations" means and includes operations for and the mining, drilling, testing, completing, re-completing, reworking, deepening, plugging back or repairing of a well or hole, repairing or replacing production equipment, or any other operations, in search for or in an effort to obtain or re-establish production of oil, gas and other leased substances, and includes the production of leased substances whether or not in paying quantities. All operations hereunder shall be deemed to be continuously prosecuted if not more than ninety (90) consecutive days elapse between the completion of all operations at one well or location and the commencement or recommencement of operations at the same or another well or location.

7. Lessee is hereby granted the right and power at any time and from time to time, without Lessor's joinder, to pool, combine or utilize this lease, the leasehold estate and Lessor's royalty estate created hereby, as to all or any part of the land covered hereby, and as to any one or more subsurface strata or formations, with any other land, lease or leases, royalty or mineral estate or estates, or portions thereof or subsurface strata or formations thereunder, regardless of the ownership thereof, so as to create one or more pooled units or operating units for oil, gas and other leased substances, or either or any of them. Each such unit created for oil, including casinghead gas, shall contain not more than eighty (80) acres plus a tolerance of ten percent (10%) thereof, and each such unit created for gas, including condensate, shall contain not more than six hundred forty (640) acres plus a tolerance of ten percent (10%) thereof. If any drilling, spacing, proration, conservation, production or other laws, orders, rules and regulations of any Federal, State or other governmental authority having or claiming jurisdiction has heretofore or shall at any time hereafter prescribe or permit the creation of units larger than those specified hereinabove, then any unit or units created hereunder may contain or may be redesignated so as to contain, as the case may be, not more than the maximum number of acres so prescribed or permitted, plus any prescribed or permitted tolerance; the Lessee being specifically authorized and empowered but not obligated to create units of such size, shape and content as to obtain the maximum allowable of production from any well or wells. Pooled units may be formed hereunder and unit designations filed before or after the commencement or completion of a well and before or after production is obtained on that portion of this lease included in any such unit or on any other acreage included therein. In the event from such unit or units, such portion of the royalty specified herein as the number of acres (mineral acres) out of the proceeds from the production or units bears to the total number of acres included in such unit or units. Operations for and the commencement of this lease placed in any such unit to production of either oil, gas or other leased substances on any portion of a unit in which all or any part of the land described herein is embraced, or production of oil, gas or other leased substances therefrom shall have the same effect under the terms of this lease as if a well were commenced, completed or producing oil, gas or other leased substances on the land embraced by this lease; Lessee shall execute in writing and file for record in or an instrument supplemental thereto redesignating same, as the case may be. Either prior to the securing of production from any unit created under the authority herein above granted, or after cessation of production therefrom, Lessee shall have the right to dissolve the unit so created, without Lessor's joinder or further consent, by executing in writing and placing of record in the County or Counties in which the lands making up such unit may be located, an instrument identifying and dissolving such unit. If it is determined that any acreage, interest, mineral or stratum is not subject to the unit designation instrument and is not included in the pooled unit, the unit shall not be terminated thereby but shall continue in force as to the remaining acreage, interests, minerals and stratum, unless otherwise provided in leases and other instruments pertaining thereto and of record on the effective date of the unit; and neither Lessee nor any other interest owner shall be liable to any party for the change in acreage content of the unit, nor be obligated to make any retroactive apportionment or adjustment of royalties or sums paid on production. In addition to the foregoing, Lessee shall have the right to utilize, pool, or combine all or any part of said land as to one or more of the formations thereunder with other lands in the same general area by entering into a cooperative or unit plan of development or operation, including any enhanced recovery unit, approved by any governmental authority and, from time to time, with like approval to modify, change or terminate any such plan or agreement and, in such event, the terms, conditions, and provisions of this lease shall be deemed modified to conform to the terms, conditions, and provisions of such approved cooperative or unit plan of development or operation and particularly, all drilling and development requirements of this lease, express or implied, shall be satisfied by compliance with the drilling and development requirements of such plan or agreement, and this lease shall not terminate or expire during the life of such plan or agreement. In the event that said unit, whereby the production therefrom is allocated to different portions of the land covered by said plan, then the production allocated to any particular tract of land shall, for the purpose of computing the royalties to be paid hereunder to Lessor, be regarded as having been produced from the particular tract of land to which it is allocated and not to any other tract of land; and the royalty payments to be made hereunder to Lessor shall be based upon production only as so allocated. Lessor shall formally express Lessor's consent to any cooperative or unit plan of development or operation adopted by Lessee and approved by any governmental agency by executing the same upon request of Lessee. Lessor's consent is not a prerequisite to the effective commitment of Lessor's interest. The provisions hereof shall be construed as a covenant running with the land and shall inure to the benefit of and be binding upon the parties hereto, their heirs, representatives, successors, and assigns.

8. If Lessor owns a less interest in the above described land than the entire and undivided fee simple estate therein, then the royalties and rentals herein provided shall be paid to Lessor only in the proportion which Lessor's interest bears to the whole and undivided fee.

9. Lessee shall have free use of oil, gas, other leased substances and water from said land, except water from Lessor's wells, for all operations hereunder, including repressuring, pressure maintenance and recycling, and the royalty shall be computed after deducting any so used. Lessee shall have the right at any time during or after the expiration of this lease to remove all property and fixtures placed by Lessee on said land, including the right to draw and remove all casing. When required by Lessor, Lessee will bury all pipe lines below ordinary plow depth, and no well shall be drilled within two hundred (200) feet of any residence or barn now on said land, without Lessor's consent. In the event a well or wells, producing oil, gas, casinghead gas or condensate in paying quantities should be brought in on adjacent lands not owned by the Lessor and within one hundred fifty (150) feet of and draining the leased premises, Lessee agrees to drill such offset well or wells as a reasonably prudent operator would drill under the same or similar circumstances.

10. The rights of either party hereunder may be assigned in whole or part and the provisions hereof shall extend to their heirs, executors, administrators, successors and assigns. No change or division in ownership of the land, rentals, or royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of Lessee, or shall be binding upon Lessee for any purpose, until sixty (60) days after the person acquiring any interest or affected by such change or division has furnished Lessee, at its principal place of business, with the instrument or instruments, or certified copies thereof, constituting such change or division and showing his chain of title from the original Lessor. In the event of an assignment of this lease to a segregated portion of said land, or as to an undivided interest therein, the rentals payable hereunder shall be apportioned as between the several lessorhold owners ratably according to the surface area of each, or according to the un-divided interest of each, and default in rental payment by one shall not affect the rights of other lessorhold owners hereunder. An assignment of this lease, in whole or in part, shall, to the extent of such assignment, relieve and discharge Lessee of any obligations hereunder and, if Lessee or assignee of part or parts hereof shall fail or make default in the payment of the proportionate part of the rentals due from such Lessee, or assignee, or fail to comply with any other provisions of this lease, such failure shall be the sole responsibility of the defaulting party and shall not affect this lease insofar as it covers a part of said lands upon which Lessee or any assignee thereof shall not be in default and shall make payment of said rentals. Lessee may at any time execute and deliver to Lessor or to the depository above named or place of record a release or releases covering any portion or portions of the above described premises and thereby surrender this lease as to such portion or portions and be relieved of all obligations as to the acreage surrendered, and thereafter the rentals payable hereunder shall be reduced in the proportion that the acreage covered hereby is reduced by said release or releases, but all lands so released shall remain subject to easements for rights of way necessary or convenient for Lessee's operations on the land retained by it.

11. In case of suit, adverse claim, dispute or question as to the ownership of the rentals or royalties (or some part thereof) payable under this lease, Lessee shall not be held in default in payment of such rentals or royalties (or the part thereof in doubt) until such suit, claim, dispute or question has been finally disposed of, and Lessee shall have sixty (60) days after being furnished with the original instrument or instruments disposing of such suit, claim, or dispute (or a certified copy or copies thereof), or after being furnished with proof and information sufficient, in Lessee's opinion, to determine the owners of such rentals and royalties and how to correctly pay the same, within which to make payment. Should the right or interest of Lessee hereunder be disputed by Lessor, or any other person, the time covered by the pendency of such dispute shall not be counted against Lessee either as affecting the term of this lease or for any other purpose, and Lessee may suspend all payments without interest until there is a final adjudication or other determination of such dispute.

12. When drilling, reworking, production or other operations are delayed or interrupted by force majeure, that is, by storm, flood or other acts of God, fire, war, rebellion, insurrection, riot, strikes, differences with workmen, or failure of carriers to transport or furnish facilities for transportation, or as a result of some law, order, rule, regulation, requisition or necessity of the government, Federal or State, or as a result of any cause whatsoever beyond the control of the Lessee, the time of such delay or interruption shall not be counted against Lessee, anything in this lease to the contrary notwithstanding, but this lease shall be extended for a period of time equal to that during which Lessee is so prevented from conducting such drilling, reworking or other operations, or producing oil, gas, or other leased substances from the premises.

13. It is expressly understood and agreed that there shall be no obligation on the part of Lessee to offset wells on separate tracts into which the land covered by this lease may be now or hereafter divided by sale, devise or otherwise, or to furnish separate measuring or receiving tanks therefor. Lessee may at any time or times pay or tender all rentals or other sums accruing hereunder to the joint credit of Lessor.

14. Notwithstanding the death of any Lessor, or his successors in interest, the payment or tender of rentals and other amounts hereunder in the manner provided above, shall be binding on the heirs, devisees, executors and administrators of such person. After receiving notice of the death of any Lessor or his successor in interest, the Lessee may continue making payments in the manner set forth above to the estate of the deceased party, or to the credit of such estate in the depository set forth above until sixty (60) days after the Lessee shall have been furnished with certified copies of the court proceedings showing the lawful qualification of an executor or administrator for said estate, or in the event there be no administration of said estate in court, until sixty (60) days after the Lessee shall have been furnished with evidence satisfactory to it showing the successors in title to the deceased party.

15. Lessor hereby warrants and agrees to defend the title to the lands herein described, and agrees that the Lessee at its option shall have the right to redeem for Lessor, by payment, any mortgage, taxes or other liens on the above described lands, in the event of default of payment by Lessor, and be subrogated to the rights of the holder thereof. In case of payment of any such mortgage, taxes or other liens by Lessee, in addition to the right of subrogation herein granted, Lessee shall also have the right to retain any rentals or royalties which become due Lessor hereunder and to repay itself therefrom, and the retention of such rentals or royalties by Lessee shall have the same effect as if paid to the Lessor in whose behalf payment of any mortgage, taxes or other liens was made.

16. This lease shall be binding upon all who execute it, whether or not named in the body hereof as Lessor, and without regard to whether this same instrument, or any copy thereof, shall be executed by any other Lessor named above. Each Lessor executes this lease individually and in his own right and also for and on behalf of all parties for whom he is authorized and empowered to lease said land.

17. For the above consideration, Lessee is granted the option to renew this lease under the same provisions for a second primary term of years from the end of the primary term hereof, and as long thereafter as oil or gas is produced from said land or land pooled therewith. Lessee may exercise this option by paying or tendering to the Lessor or Lessor's credit in the above-named depository bank, the sum of dollars per net mineral acre covered by this lease before the expiration of the primary term hereof. No rental shall be due for the first year of said second primary term.

WEM CM

IN WITNESS WHEREOF, this instrument is executed as of the date first above written.
