UNITED STATES
DEPARTMENT OF THE INTERIOR
BUREAU OF LAND MANAGEMENT
RIGHT-OF-WAY GRANT

SERIAL NUMBERS: IDI-26446, NVN-49781, UTU-73363

1. A right-of-way is hereby granted pursuant to Title V of the Federal Land Policy and Management Act of October 21, 1976 (90 Stat. 2776; 43 U.S.C. 1761).

2. Nature of Interest:

a. By this instrument, the holder:

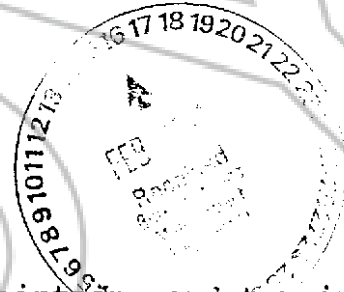

Idaho Power Company
Box 70
Boise, Idaho 83707

receives a right to construct, operate, maintain, and terminate the Southwest Intertie Project 500 kilovolt (kV) electrical transmission line, substation sites, series compensation station sites, and communication sites on public lands described as follows:

MIDPOINT TO DRY LAKE SEGMENT

(See Attachment "A" Legal Description)

- b. The right-of-way area granted herein is 200 feet wide, 406 miles long and contains 9,842 acres, more or less. If a site type facility, the facilities contains 202 acres.
- c. This instrument shall terminate 50 years from its effective date unless, prior thereto, it is relinquished, abandoned, terminated, or modified pursuant to the terms and conditions of this instrument or of any applicable Federal law or regulation.
- d. This instrument may be renewed. If renewed, the right-of-way shall be subject to the regulations existing at the time of renewal and any other terms and conditions that the authorized officer deems necessary to protect the public interest.
- e. Notwithstanding the expiration of this instrument or any renewal thereof, early relinquishment, abandonment, or termination, the provisions of this instrument, to the extent applicable, shall continue in effect and shall be binding on the holder, its successors, or assigns, until they have fully satisfied the obligations and/or liabilities accruing herein before or on account of the expiration, or prior termination, of the grant.

BOOK 203 PAGE 278

3. Rental:

For and in consideration of the rights granted, the holder agrees to pay the Bureau of Land Management fair market value rental as determined by the authorized officer unless specifically exempted from such payment by regulation. Provided, however, that the rental may be adjusted by the authorized officer, whenever necessary, to reflect changes in the fair market rental value as determined by the application of sound business management principles, and so far as practicable and feasible, in accordance with comparable commercial practices.

4. Terms and Conditions:

- a. This grant is issued subject to the holder's compliance with all applicable regulations contained in Title 43 Code of Federal Regulations part 2800.
- b. Upon grant termination by the authorized officer, all improvements shall be removed from the public lands within two years, or otherwise disposed of as provided in paragraph (4)(d) or as directed by the authorized officer.
- c. Each grant issued for a term of 20 years or more shall, at a minimum, be reviewed by the authorized officer at the end of the 20th year and at regular intervals thereafter not to exceed 10 years. Provided, however, that a right-of-way granted herein may be reviewed at any time deemed necessary by the authorized officer.
- d. The stipulations, plans, maps, or designs set forth in Exhibit "A", dated November 30, 1994, attached hereto, are incorporated into and made a part of this grant instrument as fully and effectively as if they were set forth herein in their entirety.
- e. Failure of the holder to comply with applicable law or any provision of this right-of-way grant shall constitute grounds for suspension or termination thereof.
- f. The holder shall perform all operations in a good and workmanlike manner so as to ensure protection of the environment and the health and safety of the public.

IN WITNESS WHEREOF, The undersigned agrees to the terms and conditions of this right-of-way grant.

Joe Marshall
 Joe Marshall, Chief Executive Officer
 Idaho Power Company

SOUTHWEST INTERTIE PROJECT LEGAL DESCRIPTION

MIDPOINT TO DRY LAKE SEGMENT

TRANSMISSION LINE LEGAL DESCRIPTIONS:

IDAHO: See pages 1 through 4 of the IDI-26446 case abstract report.

NEVADA: See pages 1 through 22 of the NVN-49781 case abstract report.

SUBSTATIONS:

IDAHO: Existing Midpoint Substation site near Shoshone, Idaho. This site is on private land - no public land right-of-way required.

NEVADA: Robinson Summit, site 10.
T.18N., R.61E., MDM.
Sec 20: SW $\frac{1}{4}$

Dry Lake, site 18.
T.17S., R.64E., MDM.
Sec 7: SW $\frac{1}{4}$

SERIES COMPENSATION STATIONS:

IDAHO: None required

NEVADA: Thousand Springs
T.40N., R.65E., MDM.
Sec 28: SE $\frac{1}{4}$ NE $\frac{1}{4}$

Delamar Valley
If this facility is required, the specific location would be determined later and a separate environmental assessment would be prepared prior to construction.

COMMUNICATION SITES:

IDAHO: No sites on public land required

NEVADA: Ellen D (L&D)
T.45N., R.63E., MDM.
Sec 15: NE $\frac{1}{4}$ SW $\frac{1}{4}$

Six Mile
T.37N., R.65E., MDM.
Sec 35: SW $\frac{1}{4}$ SE $\frac{1}{4}$

Sec 5: SE $\frac{1}{4}$ SE $\frac{1}{4}$

EXHIBIT "A"

(IDI-26446, NVN-49781, UTU-63464)

1. Prior to any construction activity on the Southwest Intertie Project 500kV transmission line, electrical substations, series compensation stations, communication sites, fiber optic line, or access roads, the holder shall prepare and receive from the authorized officer, written approval of a detailed Construction, Operation, and Maintenance (COM) Plan. This plan will include but is not limited to performance bonding requirements, tower siting specifications, access plan, cultural resource clearances, Threatened or Endangered plant and animal species inventory, and site specific reclamation, mitigation and monitoring measures. The COM Plan may include stipulations or mitigation measures that would be developed on a site specific basis and need. The COM Plan will also have appropriate monitoring measures to track the success of the various mitigation measures in minimizing environmental impacts and to monitor rehabilitation measures. Only after the approval by the Bureau of Land Management of the SWIP COM Plan will a notice to proceed with construction be issued. The COM Plan will direct the construction, operation, maintenance and termination of the Southwest Intertie Project.
2. The holder shall not initiate any construction or other surface disturbing activities on the right-of-way without the prior written authorization of the authorized officer. Such authorization shall be a written notice to proceed issued by the authorized officer. Any notice to proceed shall authorize construction or use only as therein expressly stated and only for the particular location or use therein described.
3. Use of the fiber optic ground wire by a commercial communications company(s) would be allowed upon completion of all appropriate environmental requirements and upon obtaining a R/W grant from the Bureau of Land Management (BLM). A separate R/W application would be required and a separate, site specific, environmental document may be required to analyze impacts that would be associated with the construction, operation, maintenance, and termination of the associated regeneration stations, electrical service lines, or other ancillary facilities that would be associated with the fiber optic communication system.
4. The holder will comply with the terms and conditions identified in the formal Section 7 Consultation and Biological Opinion document prepared by the U.S. Fish and Wildlife Service, dated May 12, 1993 (File No. 1-5-93-F-91), and the subsequent formal Section 7 Consultation and Biological Opinion document for Mojave Desert Tortoise Critical Habitat, dated March 23, 1994 (File No. 1-5-94-F-28R).
5. The holder will comply with the stipulations identified in the Cultural Resources Programmatic Agreement accepted by the Advisory Council on Historic Preservation on June 13, 1990.

6. Prior to the issuance of a notice to proceed, the R/W holder will, to the satisfaction of the Bureau of Land Management, show that the SWIP transmission line would be placed in a location along Links 700 and 720 which will allow sufficient room for the construction of anticipated future transmission lines identified in the SWIP FEIS/PPA (two 500kV White Pine Power Project Lines and the 500kV Utah-Nevada Transmission Project (UNTP) transmission line.
7. Except where the SWIP transmission line parallels the UNTP 500kV transmission line (Links 675, 690, 700, and 720), the centerline of the SWIP will be located within 200 feet of the centerline of any other transmission line it parallels. Because of reliability requirements, where the SWIP parallels the UNTP transmission line (Links 675, 690, 700, and 720), a maximum 2,000 foot separation, centerline to centerline, between the two lines will be allowed subject to the restraints identified in stipulation number 6 and subject to the double circuit tower needs identified in the SWIP FEIS/PPA.
8. The Bureau of Land Management will notify the holders of existing rights-of-way, leases, permits, or other land use authorizations that would be impacted by the SWIP. Idaho Power Company shall resolve, to the holders satisfaction, all impacts, conflicts or concerns about the authorized use(s) that may result from the construction, operation, and maintenance of the SWIP.
9. Within 90 days of completion of the SWIP construction, the holder will submit to the authorized officer an "as built" survey of the transmission line route, series compensation station sites, substation sites, communication sites, and any ancillary facilities including permanent access roads required for the operation and maintenance of the transmission line facilities. The "as built" survey will become the official right-of-way grant map.
10. In accordance with 43 CFR 2803.4(c), failure of the R/W holder to use the R/W for the purpose for which the authorization was issued for any continuous five-year period shall constitute a presumption of abandonment. If the holder fails to prove to the satisfaction of the authorized officer that his failure to use the R/W was due to circumstances not within his control, the R/W may be cancelled.
