The findings of the above work are as follows:

The claims are located on a hot springs system mineralized with various metals. Mercury is present near the surface, but bonanza grade gold-silver ores may be further down.

The work was performed under the direction of Chris W. Ralph whose qualifications to supervise such work include the following experience and education: Mr. Ralph has a degree in Mine Engineering from the Mackey School of Mines in Reno, NV

All of the aforesaid unpatented mining claims are contiguous and work on, or for the benefit of, any one claim or group of claims tends to develop all the claims. The work was performed for the purpose of developing the mineral potential of the claims and to maintain and hold such claims.
