The findings of the above work are as follows:

These claims are located on an old hot springs system and contain mercury, silver and gold. Bleached and altered rocks mark the ore zone which contains considerable metals

The work was performed under the direction of Chris W. Ralph whose qualifications to supervise such work include the following experience and education: Mr. Ralph has a degree in Mine Engineering from UNR at the Mackey School of Mines and experience working in the industry.

All of the aforesaid unpatented mining claims are contiguous and work on, or for the benefit of, any one claim or group of claims tends to develop all the claims. The work was performed for the purpose of developing the mineral potential of the claims and to maintain and hold such claims.
