The findings of the above work are as follows:

The claims are located on a large hot springs system that is mineralized with both Mercury and gold. Bleached rocks show the location of the mineral system. Mercury ore is exposed on the claims.

The work was performed under the direction of Chris W. Ralph whose qualifications to supervise such work include the following experience and education: Mr. Ralph has a degree in Mine Engineering from the Mackay School of Mines, and experience in the mining industry.

All of the aforesaid unpatented mining claims are contiguous and work on, or for the benefit of, any one claim or group of claims tends to develop all the claims. The work was performed for the purpose of developing the mineral potential of the claims and to maintain and hold such claims.
